DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, drawn to a polynucleotide of SEQ ID NO: 1 or 7 and a method of generating plants with elevated tocopherol and tocotrienol content by transformation therewith and plants thereof.

Group II, claim(s) 9-10, drawn to the use of SEQ ID NO: 1 or 7 for making a test system for identifying inhibitors of 2-methyl-6-phytylhydroquinone methyltransferase and the test system.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the corresponding technical feature of SEQ ID NO: 1 or 7 was known in the art. Kaneko T. *et al.* DNA Research, 1996, Vol. 3, pp. 109-136 teach SEQ ID NO: 1 from *Synechocystis* GenBank Accession Number D90914; available to the public 10/30/1996.

The claims are directed to 2 independent and distinct nucleic acid sequences. Upon election of Group I, or II, Applicant is required to elect a single nucleic acid sequence of SEQ ID NO: 1 or SEQ ID NO: 7. This requirement is not to be construed as a requirement for an election of species, since each of the nucleic acid sequences or amino acid sequences recited in alternative form is not a member of a single structurally and functionally related genus, but rather constitutes an independent and patentably distinct invention. Separate searches and considerations would be required for examination of each of the nucleic acid sequences.

Art Unit: 1638

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
